

TALEGA GALLERY

COMMUNITY ASSOCIATION

Billiard Room/Library Guidelines for Transitional Operation Phase 4 (Yellow Tier)

To preserve the health of our members and prevent the spread of COVID 19 the following guidelines define **Phase 4 (Yellow Tier)** of our plan to reopen the Talega Gallery Community Association Billiard Room/Library on a transitional basis. As the situation evolves, the Association will remain flexible and adaptive to further guidance provided by County, City and State agencies.

Use of the Billiard Room/Library is at your own risk. The Talega Gallery Community Association does not assume responsibility for your safety from coronavirus or COVID-19. As a participant you are responsible for your health and are expected to follow public health guidelines from the CDC and state and county departments of public health. These include:

- Maintaining a proper social distance of at least 6 feet from other persons
- Frequently washing or sanitizing hands during activities.
- Wearing personal protective equipment such as masks and gloves in public places

Compliance with specific guidelines in the Billiard Room and Library is expected:

- All residents who use the Billiard Room/Library are required to sign a *Common Area Facilities Release Form* prior to using the facilities.
- The billiard room will be available from 8:30AM to 5:00 PM daily.
- Use of the billiard room/library area is **limited to 16 Residents** - to accommodate card/game players and billiard players.
- Reservations for use of the billiard tables are required and take priority. Please visit <https://app.courtreserve.com/Portal/GalleryActivities> to book a reservation.
- Reservations may be booked in 60 minute segments.
- Guests or non-residents are not allowed to use the billiard room or the library.
- Residents are encouraged to bring and use hand sanitizer.
- Residents are responsible for using provided cleaning spray to disinfect individual equipment, billiard balls and tables before and after use.
- Protective masks are strongly recommended when walking in or through common areas.
- Residents who have finished their game should leave the area. Only those who are actually playing should be inside the facility.

The HOA staff and BOD will rely on the participants to help monitor adherence to these guidelines. Should there be members who elect not to follow the guidelines the Board would prefer to mitigate these issues amicably. Should issues arise that cannot be resolved amicably, a temporary suspension of activity may be imposed until further easing of social distancing guidelines are issued by County, City and/or State agencies.
