

TALEGA GALLERY

COMMUNITY ASSOCIATION

Putting Green Operations Guidelines for Transitional Operation Phase 4 (Yellow Tier)

To preserve the health of our members and prevent the spread of COVID 19 the following outlines **Phase 4 (Yellow Tier)** of our plan to reopen the Talega Gallery Community Association Putting Greens on a transitional basis. As the situation evolves, the Association will remain flexible and adaptive to further guidance provided by County, City and State agencies.

Play on this area is at your own risk. The Talega Gallery Community Association does not assume responsibility for your safety from coronavirus or COVID-19. As a participant you are responsible for your health and are expected to follow public health guidelines from the CDC and state and county departments of public health.

These include:

- Follow CDC Guidelines for social distancing of 6' and mitigating the spread of COVID – 19
- Follow the CDC guidelines for hand sanitizing.
 - At a minimum, wash your hands before and after play.
 - Players shall bring their own hand sanitizer for use as required.
- The CDC recommends the use of face covering.

Specific guidelines on and around the putting greens are strongly encouraged:

- Players shall be limited to 8 per putting team.
- There should be no **more than 24 players in the area at any time.** (Three putting games at any given time).
- First-come, first-served
- Bring your own equipment. (Balls and putters).
- Bring your own writing instruments for scorekeeping.
- Remove only your own ball from the cup before the next player putts.
- Players who have finished their games should leave the area.
- No spectators / guests allowed – residents only.
- Players shall bring their own hydration, water, or drink.
- Players must bring their own equipment sanitizing products.

The HOA staff and BOD will rely on the participants to help monitor adherence to these guidelines. Should there be members who elect not to follow the guidelines the Board would prefer to mitigate these issues amicably. Should issues arise that cannot be resolved amicably, a temporary suspension of activity may be imposed until further easing of social distancing guidelines are issued by County, City and/or State agencies.
